

# SEVILLA, ROMNICK SINGULAR

## Full Stack Web Developer

+639614115127 | [nick022190@gmail.com](mailto:nick022190@gmail.com) | [LinkedIn](#) | Pasig City, Metro Manila, Philippines

### SUMMARY

Passionate Full Stack Web Developer with more than 8 years of experience building scalable, user-centric web applications. Proven ability to enhance business processes, improve data accessibility, and elevate user engagement through innovative full-stack solutions. Expert in both front-end and back-end development using modern frameworks like React, Laravel, and TypeScript. Committed to clean, maintainable code and continuous process optimization, with a strong focus on usability, performance, and seamless user experience.

### WORK HISTORY

#### **Freelance Web Developer**

**Self-Employed | 2023 – Present**

- Successfully completed 4 freelance web development projects for clients across various industries.
- Built full-stack web applications using Laravel, Livewire, AlpineJs and Tailwind CSS, focusing on performance, usability, and responsive design.
- Collaborated closely with clients to translate business requirements into scalable, modern web solutions.
- Projects showcase a mix of custom dashboards, portfolio sites, and business management systems — full details and screenshot preview available on portfolio: [nickdevs.vercel.app](http://nickdevs.vercel.app).

#### **Market Programmer**

**Yamaha Motor Phils Inc. | Jul 2016 – Sept 2023**

- Developed an online Management Information System tailored for a specific department's internal processes, focusing on managing and profiling critical information.
- Revamped the existing Time Commitment Service TCS system into a standalone, web-based application for better performance and accessibility.
- Supported the TCS project by:
  - Collecting data from TCS shops nationwide.
  - Aligning shop operations with company objectives.
  - Ensuring system stability and ongoing maintenance.

#### **Junior Programmer**

**ICLICK DIGISHOP INC. | Oct 2014 – Jul 2016**

- Developed a custom web application integrated with NetSuite Cloud ERP using the NetSuite PHP Toolkit API
- Supports and maintains NetSuite Cloud accounts, ensuring smooth ERP operations.
- Generated and analyzed reports based on collected data to aid business decisions.
