PROFESSIONAL EXPERIENCE

Freelance Full Stack Web Developer | Freelance

Sep 2023 – Mar 2026

- Completed four freelance web development projects for clients across multiple industries.
- Built full-stack web applications using Laravel, Livewire, Alpine.js, and Tailwind CSS, emphasizing responsive design, usability, and performance.
- Worked directly with clients to translate business requirements into practical web solutions.
- Delivered custom dashboards, portfolio websites, and business management systems; project details and previews are available in the online portfolio.

Market Programmer | Yamaha Motor Philippines Inc. | Mandaluyong City, Philippines

Jul 2016 – Sep 2023

- Developed an internal Management Information System to support departmental workflows and the management and profiling of critical information.
- Revamped the Time Commitment Service (TCS) from a legacy VB6 system into a standalone web application, improving accessibility and supporting ongoing system use.
- Supported TCS operations by maintaining data accuracy and consistency across multiple systems and preparing data analysis and reports.
- Collaborated with cross-functional teams to align shop operations, system data, and reporting with business objectives.

Junior Programmer | Iclick Digishop Inc. | San Juan City, Philippines

Oct 2014 – Jul 2016

- Developed a custom web application integrated with NetSuite Cloud ERP using the NetSuite PHP Toolkit API.
- Maintained NetSuite cloud accounts and supported day-to-day ERP operations.
- Generated and analyzed reports from collected data to support business decisions.
